

MID Director Frobose Attacks His Fellow Board Members, Creating Chaos While Jacking up Your Rates

Director Keating, the only woman ever elected to the MID Board, opposed MID's huge rate hike in November 2022 and voted NO to hiring Frobose's lawyer friend, which cost ratepayers over \$1 MILLION.

In response, Frobose bullied and berated Keating:

"I've been screamed at, spit on, threatened, and belittled. I've been harassed in every sense of the term."

Director Keating, MID Board Meeting, February 16, 2026.

Frobose told Keating "to shut up." Frobose was "inappropriately rude, disrespectful, and combative towards her..."

Frobose would snort, interrupt [Keating]... "Frobose "was personally combative ..." towards Keating and "made comments intended to demean [Keating] and other women."

Keating complaint, pp. 4-5.

Don't Tolerate Disrespect from Frobose!

Frobose brags that he won his lawsuit against Keating. However, his San Francisco lawyers had the case dismissed on technicalities. **The court never determined that Keating's statements were untrue.**
